Re: WC Docket Nos. 10-90 and 14-58 - FCC Form 481 -Kalama Telephone Company - Request for Confidential Treatment

Dear Ms. Dortch:

On behalf of Kalama Telephone Company it is requested that the attached material not be made routinely available for public inspection pursuant to 47 C.F.R. § 0.459 (a)(l).

Pursuant to 47 C.F.R. § 0.459(b), the information to be treated on a confidential basis is the financial information of the company. This information is being submitted in Docket No. 14-58 and pursuant to Commission rule.

As required by 47 C.F.R § 0.459(b), the basis for the confidential treatment is that the information contains sensitive financial information concerning the company. The company is subject to competition and the information would provide competitors with valuable insight as to the company's plans and financial condition. The company is subject to competition in its downtown core by other carriers and disclosure of information could result in harm to the company by providing competitors with a competitive advantage and knowledge about the company's financial resources and plans. Similar information concerning the competitors is not available to the company. Thus, creating a competitive disadvantage.

The company routinely protects this type of information from disclosure by filing on a confidential basis when it is required to so file that information. The information is not available to the public. There has not been any previous disclosure of the information to third parties.

A redacted copy is included for the public record. Pursuant to the filing instructions, there is both an "original" and a copy, therefore, there are actually two copies of the redacted and two copies of the confidential versions. The confidential versions are contained in a separate envelope that is marked confidential.

Thank You you're your immediate attention to this matter

Sincerely

Rick Vitzthum

Chief Financial Officer

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations - FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions - FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

relevant geographic area.

40038. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.	Name of Attached Document Listing Required Information	
Broadband Deployment Locations - FCC 14-96 (par	agraph 80)	
4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filling deadline for the FCC Form 481.	Name of Attached Document Listing Required Information	
4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the	Name of Attached Document Listing Required Information

Kalama Telephone Company FCC Form 481 (July 2017), Line 510 Description of Processes and Procedures to Ensure Compliance with Service Quality Standards and Consumer Protection Rules Per Instructions for Completing FCC Form 481

This document details the processes and procedures that Kalama Telephone Company (the "Company") follows to ensure compliance with service quality standards and consumer protections rules as set forth in the Instructions for Completing FCC Form 481.

For service quality standards that are affected by plant issues, the Company engineers and installs its plant and other facilities in such a way as to ensure, to the greatest extent possible, compliance with service quality standards that exist at the time that the plant and facilities are constructed. Plant is augmented, upgraded and/or reconfigured as service needs evolve.

In addition, Company employees are periodically briefed on issues involving service quality standards and consumer protection rules. In particular, if any set of issues appear to be prevalent, employees are given briefings on how to handle such issues. An example is the call completion problems that have arisen over the last several years and the customer calls that are generated as a result. Although this is not a service quality problem caused by the Company, it does affect customers of the Company and, therefor, deserves the attention of the Company employees.

The Company also periodically reviews its operating procedures to be sure that those operating procedures are in compliance with service quality standards and that the operating procedures are not in violation of consumer protection rules. If questions arise, legal counsel is sought as needed.

If a complaint pertaining to the Company's compliance with service quality standards or consumer protection rules is received by the Company, the complaint is promptly investigated, the matter tracked and any corrective action noted. This process ensures that issued involved in the matter are addressed and corrections made, if needed. It should be noted that the Company has received no customer complaints in the past five years regarding service quality standards or consumer protection rules as they relate to the service offered by the Company other than call completion issues, which, as noted above, are not caused by the Company.

Kalama Telephone Company FCC Form 481 (July 2017), Line 610 Statement Describing Ability to Function in Emergency Situations Per Instructions for Completing FCC Form 481

At line 600 of FCC Form 481, Kalama Telephone Company (the "Company") certified that it is able to function in emergency situations as set forth in 47 C.F.R § 54.202(a)(2). This means that the Company has a reasonable amount of back-up power to ensure functionality without an external source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. This statement describes how the Company is prepared to provide continued service in an emergency situation.

The Company has back-up batteries that provide service for its central office during a commercial power outage, with the capacity to function for at least eight hours. In addition, there is a natural gas powered generator available which can operate as long as the natural gas supply is not interrupted. The generator will also operate with propane in case the natural gas supply is interrupted. The generator automatically starts during any power outage or spike in commercial power that powers the central office and business office. Further, the Company has propane generators installed at all but two of its remote sites. The two remote sites that do not have an install generator are supplied with a portable generator in case of a power outage.

The Company has route redundancy and diversity for interexchange access service, E-911 trunking and SS7 signaling circuits.

The Company's outside plant is primarily buried and, thus, protected from most weather events. The Company's central office switch capacity is engineered to accommodate traffic spikes, and its interexchange facilities also have the capacity to provide additional circuits for interexchange carriers should the need arise.

In the case of isolated groups of customers that may suffer damage due to a cable cut, the Company maintains sufficient staff and other resources to be able to put customers back in service in a very short amount of time. The Company's emergency service equipment is located within its exchange and requires very little time to dispatch.

Kalama Telephone Company FCC Form 481 (July 2017), Line 1010 Voice Services Comparability Report for Completing FCC Form 481

Pursuant to 47 C.F.R. § 54.313 (a) (10) Kalama Telephone Company (Kalama) is in compliance with the requirement that voice services is no more than two standard deviations above the national average urban rate for voice service of \$49.51 as specified in Public Notice DA 17-167 issued on February 14, 2017. Kalama's current total local end-user rate¹ of \$18.00 (which includes a local fee of \$18.00, no mandated state fees and no mandatory extended area service charges) is not above the standard deviation as specified in the USF/ICC Transformation Order. ²

¹ Local End User Rate as defined in USF/ICC Transformation Order 26 FCC Rcd at 17751, Para. 238
² USF/ICC Transformation Order 26 FCC Rcd at 17694, Para 24 (Section in India) (ITE)

² USF/ICC Transformation Order, 26 FCC Rcd at 17694, Para. 84 (footnote included) "The standard deviation is a measure of dispersion. The sample standard deviation is the square root of the sample variance. The sample variance is calculated as the sum of the squared deviations of the individual observations in the sample of data from the sample average divided by the total number of observations in the sample minus one. In a normal distribution, about 68 percent of the observations lie within one standard deviation above and below the average and about 95 percent of the observations lie within two standard deviations above and below the average."

Kalama Telephone Company FCC Form 481 (July 2017), Line 1030 Broadband Comparability Certification Report for Completing FCC Form 481

Pursuant to 47 C.F.R. § 54.313 (a) (12) Kalama Telephone Company (Kalama) certifies that it is in compliance with the requirement that Kalama's broadband service offering for 10 Mbps download and 1 Mbps upload is less that the national average for such service. The national average for 10 Mbps download and 1 Mbps upload with unlimited usage allowance as specified in Public Notice DA 16-362 issued on April 5, 2016 is \$75.20 per month. The national average for 10 Mbps download and 1 Mbps upload with unlimited usage allowance as specified in Public Notice DA 17-167 issued on February 14, 2017 is \$77.98 per month. Kalama's current broadband service rate that meets or exceeds the 10 Mbps download and 1 Mbps upload with unlimited usage requirement is \$59.95.
